List of Figures

Roles and Responsibilities

- Project Manager (Arron Solano) - the project manager will be responsible to ensure that tasks related to completing our project will be completed in a timely and correct manner. Daily and weekly meetings will be held to enhance the work done by the project manager.
- Front End & User Interface Developer (Brian Howell) - will develop the user interface
- Back End Developer (Daniel Carroll) - responsible to develop database storage system and other functions related to storage and application functionality.
- Bitcoin Integration (Michael Danko) - will integrate software functions to work in conjunction with bitcoin blockchain.

Project Description

A short description of the project, why is the software needed what problem does it solve, who will use the software, what is the scope of the project?

Software Competitors

Is there software out there that functions similarly? How is ours better? Is our app a mobile app, web app, database, etc?
